CUSTOM SOFTWARE DEVELOPMENT & BUSINESS PROCESS CONSULTING

COMPANY OVERVIEW

Founded:	**2004 — East Hartford, CT**
Founded By:	**Jason Bittner**
Core Services:	**Custom Software, Legacy Modernization, Data/AI Analytics**
Industries:	**Manufacturing, Aerospace & MRO, Consumer Products**

CORE COMPETENCIES

- **Custom Software Applications:** Secure, scalable web apps & enterprise portals.
- **Legacy Augmentation & Modernization:** Modernizing systems to maximize ROI.
- **Data Management & Dashboards:** Real-time dashboards & ERP integrations.
- **RFID Implementation:** Asset tracking & supply chain visibility.
- **Internet of Things (IoT):** Connected sensors & shop-floor data collection.
- **AI / Machine Learning:** Predictive analytics for smarter operations.

PAST PERFORMANCE & PROVEN RESULTS

Koster Keunen — Shop-Floor ERP Integration (2026)
Real-time touchscreens interfacing with enterprise ERP across production and shipping.

Twin MRO — RFID Parts Tracking System (2026)
Overhead RFID tracking with signal triangulation pinpoints part location and movement facility-wide.

Miyoshi America, Inc. — Manufacturing Data & Process System (2026)
Streamlined operations, maintenance tracking, and unified reporting.

KEY DIFFERENTIATORS

- **20+ Years of Proven Excellence:** Operating continuously since 2004 with a proven history of on-time, on-budget delivery across complex data environments.
- **Elite Senior Talent:** Intentionally compact, senior-level engineering team delivering direct architect execution without corporate overhead or junior handoffs.
- **Security-First Architecture:** Daily operational rigor handling sensitive enterprise records, proprietary datasets, and mission-critical workflows with zero compromise.
- **Turnkey Delivery:** True end-to-end partnership from strategic roadmapping and prototyping through deployment, testing, and continuous lifecycle support.
